The Solar Survival Map for Minecraft is a survival style map with limited resources that allows you to explore space. You will go to different planets and meet a strange new life in this challenging Minecraft mod as you manage limited resources and rush to places where you can get what you need to stay alive. You will need to rush to the nearest planet you can find and load on all the resources needed to stay alive. Collect survival needs while exploring the nearest planet you can find and prepare to venture back into space. Explore the stars and jump from planet to planet, doing your best to stay alive. Managing the limited resources you find are unpredictable and vary from planet to planet, making it a tough survival guide to resource management that should keep you busy and present the challenge. Space exploration feel combined with peak resources make this solar survival Minecraft mod map one of the most complex and fun resource management options you'll find when you explore different maps. Rare planets and the vast distance between different places make basic survival challenging enough to remain interesting for quite a while. Beware of Alien Encounters You'll need to build the equipment you need to arm yourself to fight alien encounters almost as soon as you land and start collecting what you need to survive. You want to start getting weapons and armor ready as quickly as possible to prepare for an alien attack that can wait on any of the new planets you visit. Each possible encounter adds to the problem of keeping yourself alive as you collect limited resources per ton of different planets. The Solar Survival Map Minecraft mod raises the complexity of Minecraft's survival mode by offering extremely limited resources in a fun space setting. This map will give veteran Minecraft players who don't have much to fear from the survival mode of a new challenge, distributing dramatically limited resources and offering a fun space taste study. Try the solar survival map for Minecraft if you want to manage tough resources and try some space exploration.
